

Table of Contents

Abbreviations.....	9
Introduction	10

PART I

SKIN TYPES

1.1. Classification according to sebum production and <i>stratum corneum's</i> water content	12
1.2. Classification according to the tendency for irritation	14
1.3. Classification according to melanin level and the ability to produce pigment	15
1.4. Classification according to the wrinkle appearance.....	17
1.5. Baumann's four-criteria classification	17

PART II

PRE-TREATMENT SKIN PREPARATION

Chapter 1. The <i>stratum corneum</i> as the main skin barrier	22
---	-----------

Chapter 2. Skin cleansing and cleansers	26
--	-----------

2.1. Skin cleansers.....	26
2.1.1. Soap	26
Principle of cleansing action	26
Soap chemistry.....	26
Dermatological aspects.....	28
Distribution.....	29
2.1.2. Oil-free cleansers	29
2.1.3. Cleansing emulsions	30
Cold cream	30
Cleansing milk.....	31
2.1.4. Hydrophilic oil	31
2.1.5. Micellar solution	31
2.2. Factors determining the irritant potential of a cleanser	32
2.2.1. pH value	32

2.2.2. Surfactants	37
Anionic surfactants	38
Amphoteric surfactants (zwitterions)	39
Non-ionic surfactants	39
Irritation potential of surfactants	39
2.3. Additives in skin cleansers	43
2.3.1. Moistening agents	43
2.3.2. Calming agents.....	43
2.4. Choosing a cleanser	44
2.5. Skin exfoliation and exfoliating agents	45
2.5.1. Scrubs	45
Salt scrubs	46
Sugar scrubs	47
2.5.2. Enzymatic peeling.....	47
2.5.3. Physical treatment.....	53
Desincrustation	54
Ultrasonic peeling.....	54
2.6. Moisturizing as the final stage of skin preparation for an intensive treatment.....	56
2.7. Seasonal skin cleansing	57

PART III

SPECIAL SKINCARE PRODUCTS AND TREATMENTS

Chapter 1. Chemical peels.....	61
1.1. Indications and contraindications	61
1.2. Biological basis	63
1.2.1. Peeling is based on the skin's capacity for self-renewal.....	63
1.2.2. Epidermis, the main target for chemical peels	64
1.2.3. Peeling "outside-in" and peeling "inside-out": what's the difference?.....	66
1.3. Keratolytic peels	67
1.3.1. Mechanism of action	68
1.3.2. Keratolytic substances	70
Salicylic acid and liposalicylic acid	70
Resorcinol and Jessner peel	74

1.4. Acid peels	75
1.4.1. Mechanism of action	75
1.4.2. Fruit acids (α -hydroxy acids)	79
Glycolic acid	79
Lactic acid	80
Citric acid	81
Mandelic acid.....	81
Tartaric acid	82
Malic acid.....	82
Pyruvic acid.....	83
1.4.3. Indications, contraindications, and safety precautions for the use of AHA-containing cosmetic products.....	84
1.4.4. Polyhydroxy acids.....	86
Gluconic acid and gluconolactone.....	86
Lactobionic acid	88
1.5. Retinol peels	89
1.5.1. Mechanism of action	90
1.5.2. Cosmetics or medicine?.....	94
1.5.3. Retinoid effects.....	97
1.5.4. Features of retinoid use	98
1.5.5. Practical aspects of retinol peeling.....	100
1.6. General recommendations for the chemical peel procedure	102
Chapter 2. Concentrates of biologically active ingredients.....	107
2.1. Peptide regulators.....	107
2.1.1. Basic properties.....	108
2.1.2. Types of cosmetic peptides.....	109
2.1.3. Growth factors	112
2.2. Vitamins.....	116
Vitamin C (ascorbic acid)	118
Vitamin E (tocopherol)	118
Vitamin B ₃ (niacinamide).....	119
Chapter 3. Depigmenting agents	121
Azelaic acid	123
Arbutin.....	123

Kojic acid	124
Ascorbic acid	124
Niacinamide	125
N-acetylglycosamine	125
Tranexamic acid	125
Cinnamic acid	126
Ferulic acid	126
Resveratrol	127
Fatty acids	127
Plant extracts with a complex lightening effect	127
Chapter 4. Special care for oily skin	129
Chapter 5. Special care for dry skin	131
5.1. Lipid replacement therapy	131
5.2. "Deep" moisturizing	132
5.3. Surface moisturizing	133

PART IV

POST-TREATMENT SKINCARE

Chapter 1. Cosmetic ingredients	136
1.1. Moisturizers	136
1.2. Antioxidants	137
1.3. Soothing and calming agents	139
1.4. Substances that normalize the skin microbiome	139
1.5. UV filters and anti-pollution agents	141
1.5.1. Chemical UV filters	141
1.5.2. Physical UV filters	143
1.5.3. Protection from visible light	145
1.5.4. Anti-pollution protection	145
Chapter 2. Cosmetic products to complete the procedure	146
2.1. Post-peeling care	147
2.1.1. Calming agents	148
2.1.2. Occlusive agents	149
2.1.3. Sun protection	150

2.2. After treating pigmented skin	151
2.3. After treating oily or dry skin	152

PART V
IN-HOME SKINCARE

1.1. Aims of in-home care.....	154
1.2. After the in-salon treatment	155
1.2.1. After the chemical peeling.....	155
1.2.2. After the depigmenting treatment	158
1.3. In-home skincare routine is key to the success of any aesthetic treatment	159
1.4. Eye skincare.....	160
1.4.1. Eyelid skin peculiarities	160
1.4.2. Problems in the periorbital area	161
1.4.3. Caring for the periorbital skin	162
1.5. Lip care.....	164
1.6. Hand skincare	167
1.6.1. Peculiarities of the hand skin structure	168
1.6.2. Hand skin microbiome.....	169
1.6.3. Impact of hand washing on the microbiome	170
1.6.4. Hand washing technique	171
1.6.5. Frequency of hand washing	171
1.6.6. Hand detergents	173
1.6.7. Hand drying	173
1.6.8. After-cleansing recovery	175
Protective cream	175
Nourishing cream	176
1.6.9. Preventing inflammatory diseases	176
1.6.10. Hand care for contact dermatitis and eczema	177
Care recommendations.....	181
Combination of moisturizers and topical medications.....	181
