

Table of Contents

Abbreviations	9
Introduction	10

PART I CLINICAL MANIFESTATION

1.1. Acne evolution and stages	12
1.2. Clinical types of acne to not be treated by aesthetician	15
Resume	18

PART II EXAMINATION & DIAGNOSIS

1.1. General examination and anamnesis gathering	20
1.1.1. What to look for, besides the lesions	20
1.1.2. What to ask the patient at the first visit	21
1.2. Laboratory tests (<i>Albanova V.I.</i>)	21
1.2.1. Sex hormones tests	21
1.2.2. Microbiological tests	23
1.2.3. Examination before planning systemic retinoid therapy	24
1.2.4. Examination before prescription of combined oral contraceptives (COCs)	24
1.2.5. Examination before physiotherapy	25
1.2.6. Laboratory monitoring during retinoid therapy	25
1.3. Differential diagnostics	25
1.3.1. <i>Malassezia</i> folliculitis	26
1.3.2. Rosacea	27
1.3.3. Demodicosis	29
Resume	31

PART III
ETIOLOGY & PATHOGENESIS

1.1. Oily skin-related dermatoses	33
1.2. Seborrhea	34
1.2.1. Causes	34
1.2.2. Signs and symptoms	35
Oily seborrhea	35
Dry seborrhea	35
1.3. Acne	35
1.3.1. Causes	37
Hormonal factor	37
Psychogenic factor	38
Immune factor	38
Biochemical factor	39
Anatomical factor	40
Microbiome factor	41
1.3.2. Acne pathogenesis	42
Resume	43

PART IV
SKINCARE AND AESTHETIC METHODS & TREATMENTS

Chapter 1. Oily skin	45
1.1. General recommendations	45
1.1.1. Identifying the cause and prescribing pathogenetic therapy	45
1.1.2. Special nutrition	45
1.1.3. Health promotion	47
1.2. Peculiarities of hygiene and skincare	48
1.2.1. Cleansing	48
Dissolving surface impurities. Cleansing agents	48
Sebum absorption. Absorbents	49

Pore cleansing	50
1.2.2. Restoring the keratinization/desquamation balance and preventing hyperkeratosis	50
Exfoliation	50
Restoring the lipid barrier. Physiological lipids	51
1.2.3. Normalizing the regulation of sebum production	51
Restoring the local hormonal regulation	52
Direct regulation of sebocyte activity	52
1.2.4. Modulation of the skin's immune status	54
Anti-inflammatory measures	54
Modulating skin immunity	55
1.2.5. Normalizing skin microbiome	56
1.2.6. Moisturizing	57
1.2.7. Protection	57
Resume	58
Chapter 2. Acne-prone skin	59
2.1. Drug therapy	59
2.1.1. Retinoids	60
2.1.2. Antibiotics	63
2.1.3. Glucocorticosteroids	64
2.2. Topical formulations	66
2.2.1. Benzoyl peroxide	66
2.2.2. Salicylic acid	68
2.2.3. Azelaic acid	69
2.2.4. Non-comedogenic emollients	70
2.3. Cosmetic products and aesthetic procedures	71
2.3.1. Cleansing	71
Deep cleansing (comedones extraction)	71
Superficial cleansing (exfoliation)	73
2.3.2. Chemical peeling	74
Keratolytic peeling	74
Acidic peeling	75

Enzymatic peeling.....	78
Retinol peeling.....	79
2.3.3. Phototherapy (<i>Sharova A.A., Bragina I.Yu.</i>).....	80
Low-level laser therapy (LLLT).....	80
High-energy laser therapy.....	81
2.3.4. Photodynamic therapy (PDT).....	83
2.3.5. Plasma shower.....	84
2.3.6. Intradermal injections.....	85
Mesotherapy.....	85
Placenta dermal injections.....	86
Ozone therapy.....	86
Organofluorine compounds.....	87
2.4. Nutraceuticals.....	88
2.5. Causes of acne treatment failure and the importance of psychological correction (<i>Nikolaeva N.N.</i>).....	89
2.5.1. What does «ineffective treatment» mean?.....	89
2.5.2. Unproven therapeutic effectiveness of the topical formulation prescribed.....	90
2.5.3. Unreasonable prescribing of a topical drug.....	91
2.5.4. Violation of the rules of application of the topical medication by the patient.....	91
2.5.5 The formal nature of the doctor-patient relationship.....	93
2.6. Combined approaches in the treatment of moderate to severe acne with clinical examples.....	95
2.6.1. Lasers and retinoids.....	95
Low-dose isotretinoin and fractionated Er:glass laser (1550 nm) in the treatment of moderate to severe acne.....	96
Laser therapy against systemic isotretinoin in the treatment of conglobate acne (<i>Kalashnikova N.G., Albanova V.I.</i>).....	97
2.6.2. Laser therapy in patients resistant to medication.....	105
2.6.3. Drug therapy in combination with skincare and correction of the psychological status (<i>Nikolaeva N.N.</i>).....	107
Resume.....	111

Chapter 3. Post-acne	113
3.1. Symptoms and risk factors.....	113
3.2. General approaches to post-acne prevention and treatment.....	114
3.2.1. Enlarged pores.....	114
3.2.2. Post-acne scars.....	115
3.2.3. Pigmentation and congestive spots.....	117
3.3. Light therapy (<i>Urakova D.S., Kalashnikova N.G.</i>)	118
3.3.1. Scar treatment	118
Atrophic scars	118
Hypertrophic and keloid scars.....	122
3.3.2. Post-acne pigmentation	124
3.3.3. Post-procedure recommendations.....	125
3.4. RF therapy	125
3.5. Microneedling	127
3.6. Dermabrasion and microdermabrasion.....	128
3.7. Dermal fillers.....	129
3.8. Mesotherapy, biorevitalization, carboxytherapy.....	130
3.9. Chemical peeling	130
3.10. Cosmetic products	131
Resume	133
