Introduction	10

PART I ROSACEA

Chapter 1. Etiology & Pathogenesis	14
1.1. Immune factor	14
1.1.1. IL-17 and T-cell immunity imbalance	16
1.1.2. Mast cells	17
1.1.3. Neurovascular dysfunction and neurogenic inflammation.....	19
Sensory receptors of cells.....	19
Neurotransmitters	20
Genetic predisposition	21
1.2. Skin barrier function	22
1.3. Microbiome	23
1.3.1. The skin microbiome.....	23
1.3.2. The gut microbiome.....	24
1.4. Genetic predisposition	25
1.5. Rosacea-contributing factors	26
1.5.1. Provoking factors.....	26
1.5.2. Risk factors and comorbidities	29
Chapter 2. Classification & Clinical manifestation	31
2.1. Classification	31
2.2. Clinical picture	34
2.2.1. General characterization.....	34
2.2.2. Clinical manifestation of rosacea according to the 2002 classification	34
Pre-rosacea	35

Erythematotelangiectatic rosacea	36
Papulopustular (inflammatory) rosacea	37
Phymatous rosacea	38
Ophthalmorosacea	39
2.2.3. Clinical manifestation of rosacea according to the 2017 classification	39
2.2.4. Specific forms of rosacea	42
Rosacea granulomatosa	42
Rosacea conglobata	42
Rosacea fulminans	42
Rosacea gramnegative	43
Chapter 3. Diagnostics	44
3.1. Diagnosis	44
3.2. Differential diagnosis	45
3.2.1. Erythematotelangiectatic rosacea	45
3.2.2. Rosacea papulopustulosa	47
Acne vulgaris	47
Demodicosis	49
Perioral dermatitis	50
Chapter 4. Impact of lifestyle on rosacea treatment	51
Chapter 5. Medication treatment	53
5.1. Drugs	53
Kallikrein-5 inhibitors	53
Vasoconstrictor drugs	53
Antibacterial drugs	54
Antiprotozoal and antiparasitic drugs	54
Retinoids	54
5.2. Recommended administration regimen	54
Chapter 6. Cosmetic care	57
6.1. Selecting cosmetic products	57
6.2. Skin cleansing	59

6.2.1. Cleansers	59
6.2.2. Choosing a cleaning product	61
Normal sebum production.....	62
Low sebum production.....	62
Sebum overproduction (oily skin).....	62
6.2.3. Cleansing routine	62
6.2.4. For men: shaving rosacea-affected skin.....	63
6.3. Restoring and strengthening the skin barrier	64
6.3.1. Hydrolipid mantle and surface pH	64
6.3.2. Strengthening the lipid barrier	65
6.3.3. Moisturizing the <i>stratum corneum</i>	67
6.4. Normalizing the skin microbiome	68
6.5. Special cosmetic ingredients for rosacea	70
6.5.1. Antioxidants	70
6.5.2. Zinc	71
6.5.3. Niacinamide	72
6.5.4. Tranexamic acid.....	73
6.5.5. Azelaic acid	74
6.6. Sunscreen products	74
6.7. Decorative cosmetics	79
6.7.1. How to apply makeup to minimize irritation.....	79
Chapter 7. Energy-based methods.....	81
7.1. Light therapy: mechanism of action	81
7.2. Laser and IPL devices	84
7.3. Correction of vascular changes in the skin	86
Pulsed dye laser (PDL).....	86
Potassium-titanium-phosphate laser (KTP)	86
Neodymium laser (Nd:YAG).....	87
Intense pulsed light (IPL).....	88
7.4. Treating connective tissue changes	88
7.4.1. Dissection of altered anatomical entities	88
7.4.2. Tissue remodeling.....	89
7.5. RF microneedling	91

Chapter 8. Botulinum toxin therapy	93
8.1. Mechanism of action	93
8.2. Clinical experience	94
8.3. Rosacea-like steroid dermatitis	96
Chapter 9. Diet in rosacea	98
9.1. Food triggers	98
Alcohol	98
Unfermented tea	98
Caffeine	99
Niacin-rich food.....	99
Spicy food.....	99
Cinnamaldehyde	99
Histamine-rich food	100
Fatty food	100
Dairy products	100
9.2. Nutrients indicated for patients with rosacea	101
9.2.1. Supporting the skin's defense mechanisms	101
Omega-3 unsaturated fatty acids.....	101
Zinc.....	101
9.2.2. Restoring the balance of the intestinal microbiome.....	102
Prebiotics	102
Probiotics	102
9.3. Preventing the cardiovascular disorders	103
9.4. General recommendations	103

PART II
COUPEROSIS

Chapter 1. Etiology	106
Chapter 2. Clinical manifestation	108
Chapter 3. Diagnostics	110

Chapter 4. Treating couperosis	111
4.1. Lifestyle	111
4.2. Cosmetic care for couperosis	111
4.2.1 Skin cleansing	111
4.2.2. Home care	112
4.2.3. Cosmetic ingredients with vasoconstrictive effect	112
4.2.4. Cosmetic camouflage	112
Chapter 5. Injection treatment	113
Chapter 6. Energy-based therapy	114
6.1. Electrical methods	114
6.1.1. Microcurrent therapy	114
6.1.2. Electrocoagulation and RF microneedling	114
6.2. Cryodestruction	115
6.3. Light therapy	115
Summary	117
