| | |
|--------------------|----|
| Abbreviations..... | 9 |
| Introduction | 10 |

PART I

SKIN TYPES

| | |
|---|----|
| 1.1. Classification according to sebum production and <i>stratum corneum's</i> water content | 12 |
| 1.2. Classification according to the tendency for irritation | 14 |
| 1.3. Classification according to melanin level and the ability to produce pigment | 14 |
| 1.4. Classification according to the wrinkle appearance..... | 16 |
| 1.5. Baumann's four-criteria classification | 17 |

PART II

PRE-TREATMENT SKIN PREPARATION

| | |
|--|-----------|
| Chapter 1. The <i>stratum corneum</i> as the main skin barrier..... | 21 |
| Chapter 2. Skin cleansing and cleansers | 24 |
| 2.1. Skin cleansers..... | 24 |
| 2.1.1. Soap | 24 |
| Principle of cleansing action | 24 |
| Soap chemistry..... | 24 |
| Dermatological aspects..... | 26 |
| Distribution..... | 27 |
| 2.1.2. Oil-free cleansers | 27 |
| 2.1.3. Cleaning emulsions | 27 |
| Cold cream | 28 |
| Cleansing milk..... | 28 |
| 2.1.4. Hydrophilic oil | 28 |
| 2.1.5. Micellar solution | 29 |
| 2.2. Factors determining the irritant potential of a cleanser | 30 |
| 2.2.1. pH value | 30 |
| 2.2.2. Surfactants | 34 |

| | |
|---|----|
| 2.3. Additives in skin cleansers | 39 |
| 2.3.1. Moistening agents | 39 |
| 2.3.2. Calming agents..... | 40 |
| 2.4. Choosing a cleanser | 40 |
| 2.5. Skin exfoliation and exfoliating agents | 41 |
| 2.5.1. Scrubs | 42 |
| 2.5.2. Enzymatic peeling..... | 44 |
| 2.5.3. Physical treatment..... | 49 |
| Desincrustation | 50 |
| Ultrasonic peeling..... | 50 |
| 2.6. Moisturizing as the final stage of skin preparation for an intensive treatment..... | 51 |
| 2.7. Seasonal skin cleansing | 52 |

PART III

SPECIAL SKINCARE PRODUCTS AND TREATMENTS

| | |
|--|-----------|
| Chapter 1. Chemical peels..... | 57 |
| 1.1. Indications and contraindications | 57 |
| 1.2. Biological basis | 59 |
| 1.2.1. Peeling is based on the skin's capacity for self-renewal..... | 59 |
| 1.2.2. Epidermis, the main target for chemical peels | 60 |
| 1.2.3. Peeling «outside-in» and peeling «inside-out»: what's the difference?..... | 61 |
| 1.3. Keratolytic peels | 63 |
| 1.3.1. Mechanism of action | 63 |
| 1.3.2. Keratolytic substances | 65 |
| Salicylic acid and liposalicylic acid | 65 |
| Resorcinol and Jessner peel | 69 |
| 1.4. Acid peels | 70 |
| 1.4.1. Mechanism of action | 71 |
| 1.4.2. Fruit acids (α-hydroxy acids) | 73 |
| Glycolic acid | 73 |
| Lactic acid | 74 |
| Pyruvic acid..... | 75 |

| | |
|---|------------|
| Mandelic acid..... | 76 |
| Tartaric acid | 76 |
| Malic acid..... | 77 |
| Citric acid..... | 77 |
| 1.4.3. Indications, contraindications, and safety precautions for the use of AHA-containing cosmetic products..... | 78 |
| 1.4.4. Polyhydroxy acids (PHAs)..... | 80 |
| Gluconic acid and gluconolactone..... | 80 |
| Lactobionic acid..... | 81 |
| 1.5. Retinol peels..... | 83 |
| 1.5.1. Mechanism of action | 83 |
| 1.5.2. Cosmetics or medicine?..... | 87 |
| 1.5.3. Retinoid effects..... | 90 |
| 1.5.4. Features of retinoid use | 92 |
| 1.5.5. Practical aspects of retinol peeling..... | 93 |
| 1.6. General recommendations for the chemical peel procedure | 95 |
| Chapter 2. Concentrates of biologically active ingredients..... | 100 |
| 2.1. Peptide regulators..... | 100 |
| 2.1.1. Basic properties..... | 101 |
| 2.1.2. Types of cosmetic peptides..... | 102 |
| 2.1.3. Growth factors | 105 |
| 2.2. Vitamins..... | 108 |
| Vitamin C | 108 |
| Vitamin E | 110 |
| Vitamin B ₃ (Niacinamide) | 111 |
| Chapter 3. Depigmenting agents | 113 |
| Azelaic acid | 115 |
| Arbutin..... | 115 |
| Kojic acid | 116 |
| Ascorbic acid | 116 |
| Niacinamide..... | 116 |
| N-acetylglycosamine | 117 |
| Tranexamic acid..... | 117 |
| Cinnamic acid | 118 |

| | |
|--|------------|
| Ferulic acid | 118 |
| Resveratrol | 118 |
| Fatty acids | 119 |
| Plant extracts with a complex lightening effect..... | 119 |
| Chapter 4. Special care for oily skin | 120 |
| Chapter 5. Special care of dry skin | 122 |

PART IV

POST-TREATMENT SKINCARE

| | |
|---|------------|
| Chapter 1. Cosmetic ingredients | 126 |
| 1.1. Moisturizers..... | 126 |
| 1.2. Soothing and calming agents | 127 |
| 1.3. Antioxidants | 128 |
| 1.4. Substances that normalize the skin microbiome | 129 |
| 1.5. UV filters and anti-pollution agents..... | 130 |
| Chapter 2. Cosmetic products to complete the procedure | 135 |
| 2.1. Post-peeling care | 136 |
| Calming agents..... | 137 |
| Occlusive agents | 138 |
| Sun protection | 139 |
| 2.2. After depigmenting treatment | 140 |
| 2.3. After treatment for oily or dry skin | 140 |

PART V

IN-HOME SKINCARE

| | |
|---|-----|
| 1.1. Tasks of in-home care | 142 |
| 1.2. After in-salon treatment | 143 |
| 1.2.1. After chemical peeling | 143 |
| 1.2.2. After depigmenting treatment | 146 |
| 1.3. In-home skincare routine is the key to the success of any aesthetic treatment | 147 |
| 1.4. Eye skincare..... | 148 |
| 1.4.1. Eyelid skin structure | 148 |

| | |
|---|------------|
| 1.4.2. Problems of the periorbital area | 149 |
| 1.4.3. Caring for the periorbital skin | 150 |
| 1.5. Lips care | 151 |
| 1.6. Hand skincare | 155 |
| 1.6.1. Peculiarities of the hand skin structure | 155 |
| 1.6.2. Hand skin microbiome | 156 |
| 1.6.3. Impact of hand washing on the microbiome | 158 |
| 1.6.4. Hand washing technique | 159 |
| 1.6.5. Frequency of hand washing | 159 |
| 1.6.6. Hand detergents | 160 |
| 1.6.7. Hand drying | 160 |
| 1.6.8. After cleansing recovery | 162 |
| Protective cream | 162 |
| Nourishing cream | 163 |
| 1.6.9. Preventing inflammatory diseases | 163 |
| Gloves | 164 |
| 1.6.10. Hand care for contact dermatitis and eczema | 164 |
| Care recommendations | 167 |
| Combination of moisturizers and topical medications | 167 |
| References | 169 |
